

*Get all the information you need!*

## Drive The Internet Super Highway To Indymiata.org

It's once again time to have a quick refresher course on using the club web site. Our web site is the place to get the most current information about upcoming club events as well as see pictures and reports from past club events. In addition, once you have logged in to the site as a member, you can register on-line for upcoming events and participate in discussions in the members only forum area. All in all, it is a useful tool, but only if you are familiar with its use.

When you first visit the club site at "<http://www.indymiata.org/>", at the top left of the page, as well as all the other pages on the site, there is a "Member

Login" link with a "Click Here To Log In" in white type.

When you click on the link, you will go to the member login page where you will be asked for your user name and password. You should have received your user name and password when you joined the club. Enter your user name and password in the appropriate boxes and click the "Login" button. You can also tell the site to remember you on future visits. If you do this, you won't have to log in on your next visit to the website.

After you have entered your user name and password, you should get a message welcoming you back to the site. If you get a message saying that your login was incorrect, try entering your user name and password again. If that doesn't work, either, you can go back to the main login page and click on the red link under the login button that tells you to click if you have forgotten your password. (It's circled in the picture to the right.) On the next page, you will get a place to enter your email address. Enter your email address and click the "Find Password" button. If we have your email address on file, you will receive an email telling you what your user name and password are. If you are unsure of what your user name is, you can use this link to get that information also.

Enter your email and a message with your password should appear in your mailbox!

After you have successfully logged in to the site, please take a minute to verify and update your member information. We would like to know how to get in touch with you. We use your address information from the site to send your copy of the Open Road. Also, we send out email reminders a few days before each event, and we can't send you a reminder if we don't have your correct email address.

If you haven't been getting these reminders, chances are that we got your reminder back indicating that your email address was no longer valid. When this happens, we remove your email address from the system.

Don't forget that you can personalize your membership listing with information about yourself and a photo!

Another thing, after you login, you may get

Forget your password? Click on the red link and help will soon arrive.

a message about your membership renewal. After we have received your renewal form for 2007 and check, this will disappear.

As always, if you have problems with the site, we want to know about them. The site is a good thing only if you are able to use it. Drop our webmaster (Sara J) an email if you have any problems or suggestions.
